Re: Notification of Meeting on April 13, 1988 for Potentially Responsible Parties in connection with the Davis Liquid Waste Site, Smithfield, Rhode Island

Dear Mr. Hunt:

The United States Environmental Protection Agency (EPA) has previously notified you of liability which your company or organization may have incurred in connection with the Davis Liquid Waste Site in Smithfield, Rhode Island.

This letter will serve to inform you that EPA will host a meeting on April 13, 1988 of those whom it considers to be potentially responsible parties. The meeting will begin at 1:30 p.m. and will be held at the JFK Federal Building, Boston, Massachusetts in Room 1507.

EPA will discuss at this meeting the schedule for remedial design and remedial action at the site. The first phase of the remedial action shall include construction of a waterline for residents affected by contaminants migrating off-site. The second phase of the remedial action shall include a soil and raw materials treatment system and a groundwater treatment system.

EPA will also discuss a schedule for a period of negotiations, which EPA believes may facilitate an agreement with responsible parties concerning private participation in the response actions at the site. EPA strongly encourages your participation in this meeting and in any negotiations which may follow.

The meeting will not be a forum for the discussion of individual cases. The purpose of this meeting is limited to providing responsible parties with technical and legal information so as to facilitate orderly negotiations with EPA.

Please note that no one shall be admitted into the meeting unless he or she is a potentially responsible party or an official representative of a potentially responsible party. Enclosed please find a list of persons who have already received letters from EPA notifying them of potential liability under CERCLA for the Davis Liquid Waste Site.

If you have any legal questions about this letter, please contact Michael P. Kenyon, Office of Regional Counsel, at (617) 565-3433. Technical questions should be directed to Rose Toscano, Waste Management Division, at (617) 573-9636.

Sincerely,

Merrill S. Hohman, Director
Waste Management Division
